# ABOUT US

IPRS Consultants stands as a premier cybersecurity firm dedicated to fortifying digital defenses for organizations worldwide. Our commitment is unwavering, we deliver robust security solutions that empower businesses to achieve their goals securely. With a seasoned team of professionals, we bring extensive experience and expertise to the forefront, ensuring top-tier cybersecurity consultation, assessment, and testing services for every client.

## Endpoint Security

Protects computers, mobile devices, and servers from malware, ransomware, and cyber threats using security tools.

## Application Security

Safeguards software and web applications by detecting vulnerabilities and blocking potential security exploits.

## Network Security

Uses firewalls, intrusion detection, and monitoring to protect networks from unauthorized access and threats.

## Messaging Security

Secures communication channels by blocking spam, phishing, malware, and ensuring data protection.

# OUR SERVICES

# ENDPOINT SECURITY

At IPRS Consultants, we offer endpoint protection solutions to secure desktops, laptops, and mobile devices from malware, ransomware, and advanced threats. Our tools provide real-time monitoring, proactive threat detection, and rapid incident response to minimize risks at the endpoint level. With advanced security measures, we ensure comprehensive protection against evolving cyber threats, helping organizations maintain business continuity, safeguard data, and enhance endpoint resilience.

## Kaspersky

Renowned for antivirus, EDR (Endpoint Detection & Response), and XDR (Extended Detection & Response) solutions.

## Symantec (Broadcom)

Offers advanced malware detection, EDR, and XDR to detect and mitigate endpoint threats. Known for comprehensive threat protection across endpoints and servers.

## Forcepoint

Provides data-centric endpoint security solutions with insider risk management. Focuses on protecting sensitive data from external and internal threats.

# ENDPOINT SECURITY PRODUCTS

## Trellix

Delivers integrated endpoint threat detection with advanced threat intelligence. Ensures seamless threat response across devices with automated workflows.

## Sophos

Offers managed threat response, antivirus, and EDR solutions for endpoints. Detects and isolates compromised endpoints to contain and remediate threats.

# APPLICATION SECURITY

At IPRS Consultants, our application security solutions identify, mitigate, and prevent vulnerabilities in software and web applications. We ensure secure coding practices, detect misconfigurations, and safeguard applications from threats like SQL injection and cross-site scripting (XSS). Our approach focuses on proactive threat management to protect applications from exploits and ensure business continuity.

## **Nessus Professional**

Detects vulnerabilities and misconfigurations in applications and infrastructure, ensuring comprehensive security compliance.

## **MaxPatrol 8**

Offers web application scanning and compliance management to enforce secure configurations and detect issues.

## **StrikeReady**

Utilizes threat intelligence to identify, mitigate, and prevent emerging application-level security threats.

# APPLICATION SECURITY PRODUCTS

## **BeyondTrust PAM / One Identity PAM**

Limits access to critical applications by controlling privileged accounts, reducing security risks effectively.

## **Forcepoint**

Provides web filtering and data protection to defend applications from external threats and breaches.

# NETWORK SECURITY

At IPRS Consultants, our network security solutions safeguard networks from unauthorized access, cyberattacks, and data breaches. We ensure secure configurations, monitor network traffic in real time, and detect vulnerabilities to prevent potential intrusions. Our approach focuses on proactive threat management, minimizing risks, and maintaining the integrity of your network infrastructure for seamless business operations.

## Nessus Professional

Detects vulnerabilities and misconfigurations in applications and infrastructure, ensuring comprehensive security compliance.

## MaxPatrol 8

Offers web application scanning and compliance management to enforce secure configurations and detect issues.

## StrikeReady

Utilizes threat intelligence to identify, mitigate, and prevent emerging application-level security threats.

# NETWORK SECURITY PRODUCTS

## SolarWinds

Monitors network performance and security, identifying suspicious activities and anomalies.

## PT Industrial Scanner

Secures industrial networks (SCADA, IoT) by identifying system-specific vulnerabilities and risks.

# MESSAGING SECURITY

At IPRS Consultants, we provide messaging security solutions to protect communication channels like email from phishing, malware, and spam attacks. Our solutions ensure secure communication and seamless data exchange across platforms, preventing unauthorized access and data breaches. By implementing advanced threat detection, encryption, and content filtering, we safeguard your messaging systems, ensuring reliable and secure communication for your business operations.

## ■ Symantec

Offers encryption, anti-malware, and phishing protection to safeguard sensitive email communications.

## ■ Forcepoint

Secures email channels with advanced anti-spam, phishing defense, and data loss prevention (DLP) tools.

## ■ Trellix

Protects emails from advanced persistent threats (APTs), phishing, and sophisticated malware attacks.

# MESSAGING SECURITY PRODUCTS

## ■ Sophos

Delivers email encryption, anti-spam, and phishing protection for safe communication channels.

## ■ Kaspersky

Provides anti-spam, anti-phishing, and malware protection to secure messaging platforms.
