# ABOUT US

IPRS Consultants stands as a premier cybersecurity firm dedicated to fortifying digital defenses for organizations worldwide. Our commitment is unwavering, we deliver robust security solutions that empower businesses to achieve their goals securely. With a seasoned team of professionals, we bring extensive experience and expertise to the forefront, ensuring top-tier cybersecurity consultation, assessment, and testing services for every client.

## ■ Application Control

Restricts unauthorized applications, ensuring only approved software runs to enhance security and compliance.

## ■ Data Loss Prevention

Prevents unauthorized data transmission by monitoring and securing sensitive information across networks and devices.

## ■ Patch Management

Ensures systems are up-to-date by deploying software patches, fixing vulnerabilities, and enhancing security.

## ■ Endpoint Detection and Response

Provides continuous monitoring, detecting, and responding to threats on endpoints in real-time.

# OUR SERVICES

# APPLICATION CONTROL

At IPRS Consultants, we specialize in Application Control services that ensure the integrity and security of your software applications. Our team implements robust policies and procedures to manage access, monitor usage, and mitigate risks associated with application vulnerabilities. By employing cutting-edge technology and industry best practices, we help organizations enhance compliance, streamline operations, and protect sensitive data, ensuring a secure and efficient application environment.

■ **Sophos**

Comprehensive security solutions offering endpoint and application protection against various cyber threats.

■ **Symantec (Broadcom)**

Integrated cybersecurity solution safeguarding applications and sensitive data from malware and vulnerabilities.

■ **Kaspersky**

Comprehensive security suite providing advanced protection and management for applications against cyber threats.

# APPLICATION CONTROL PRODUCTS

■ **BeyondTrust PAM**

Privileged access management solution controlling application access and enhancing security protocols.

■ **One Identity PAM**

Secures privileged accounts, minimizing risks associated with application access and management.

# DATA LOSS PREVENTION

At IPRS Consultants, we offer comprehensive Data Loss Prevention (DLP) services designed to protect sensitive information from unauthorized access and potential breaches. Our DLP solutions utilize advanced technologies to monitor, detect, and respond to data threats in real-time. By implementing robust policies and encryption measures, we ensure the integrity and confidentiality of your data across all platforms. Partner with us to safeguard your organization's critical information and maintain regulatory compliance effectively.

**Cyrisma**

Offers cybersecurity risk management and DLP capabilities to protect sensitive information.

**Forcepoint**

Provides robust DLP solutions to safeguard data from unauthorized access and leaks and security breaches.

**Kaspersky**

Features DLP functionalities to prevent data breaches and unauthorized data transfers.

# DATA LOSS PREVENTION PRODUCTS

**McAfee Total Protection**

Provides comprehensive DLP features to protect sensitive data across endpoints and networks.

**Symantec**

Delivers integrated DLP solutions that protect data across various environments.

# PATCH MANAGEMENT

At IPRS Consultants, we specialize in comprehensive Patch Management services designed to protect your systems from vulnerabilities and security threats. Our expert team ensures that software and applications are consistently updated with the latest patches, minimizing the risk of exploits. By implementing automated patching processes and conducting regular assessments, we help maintain system integrity, enhance performance, and ensure compliance with industry standards. Trust us to keep your IT environment secure and up to date.

■ **ManageEngine Patch Manager Plus**

Automates patch management for operating systems and applications, enhancing security and compliance effortlessly.

■ **Ivanti Patch Management**

Offers automated patching capabilities for various environments, ensuring vulnerabilities are effectively managed and mitigated.

■ **GFI LanGuard**

Combines patch management with vulnerability scanning to maintain system security across the network.

# PATCH MANAGEMENT PRODUCTS

■ **Qualys Patch Management**

Automates patch deployment for vulnerabilities detected in scans, ensuring continuous system security and compliance.

■ **SolarWinds**

Known for its IT management solutions, SolarWinds offers patch management tools that automate the patching process and streamline updates.

# ENDPOINT DETECTION AND RESPONSE

At IPRS Consultants, we offer advanced Endpoint Detection and Response (EDR) services designed to safeguard your organization's endpoints from emerging threats. Our EDR solutions continuously monitor and analyze endpoint activities, enabling real-time detection and response to suspicious behavior. By leveraging cutting-edge technologies and threat intelligence, we help identify vulnerabilities, mitigate risks, and ensure a proactive security posture. Trust us to enhance your endpoint security and protect critical data from cyber threats.

### **SentinelOne**

Combines EDR with automated response, enabling rapid remediation of threats on endpoints effectively.

### **CrowdStrike Falcon**

Cloud-native EDR solution using AI for real-time threat detection and automated response capabilities.

### **Carbon Black**

Monitors endpoint behavior, providing advanced threat detection and efficient response to security incidents.

# ENDPOINT DETECTION AND RESPONSE PRODUCTS

### **VMware Carbon Black Cloud**

Leverages behavioral analytics for detecting and responding to endpoint threats in real-time.

### **Symantec**

Features EDR capabilities as part of its security suite, focusing on advanced threat detection and response.
