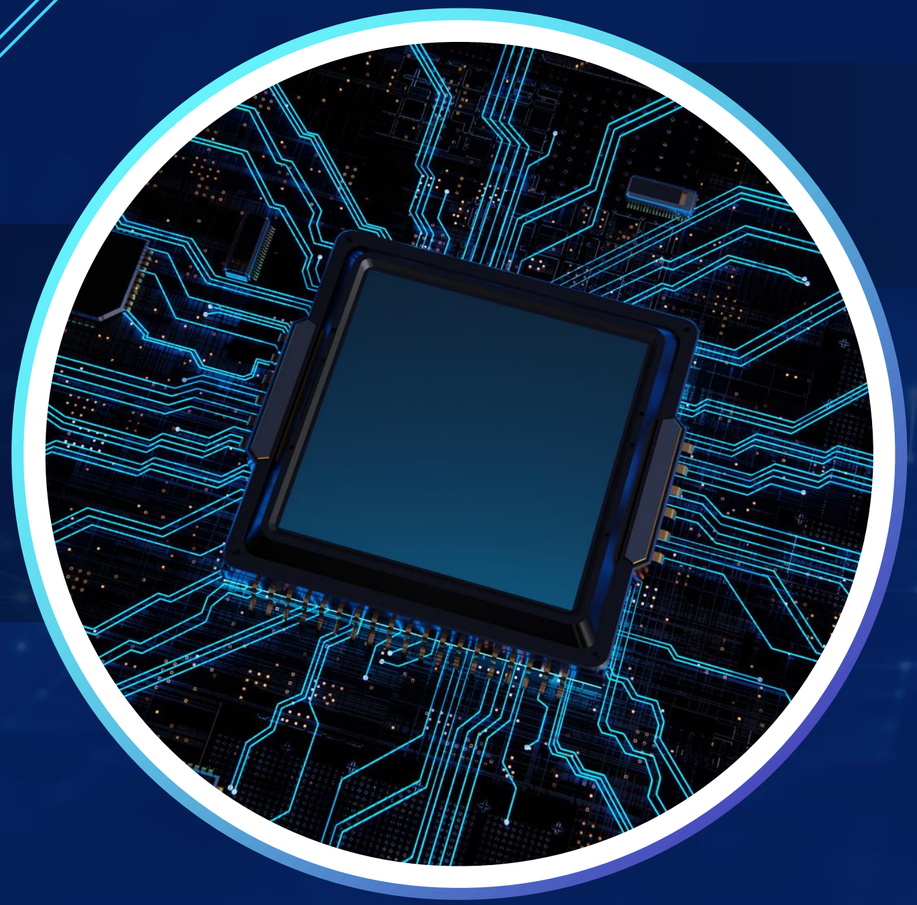
IPRS CONSULTANTS

VULNERABILITY ASSESSMENT

www.iprsconsultants.com



ABOUT US

IPRS Consultants stands as a premier cybersecurity firm dedicated to fortifying digital defenses for organizations worldwide. Our commitment is unwavering, we deliver robust security solutions that empower businesses to achieve their goals securely. With a seasoned team of professionals, we bring extensive experience and expertise to the forefront, ensuring top-tier cybersecurity consultation, assessment, and testing services for every client.

OUR SERVICES

Network Firewall

Blocks unauthorized access, ensuring secure data flow and protecting networks from external threats.

Network Monitoring and Forensics

Tracks network activity, detects anomalies, and investigates incidents for enhanced security and performance.

Unified Threat Management

Integrates multiple security features, including firewalls and antivirus, for comprehensive threat protection and management.

Event Management (SIEM)

Collects, analyzes, and correlates security events to detect threats and ensure rapid response.

NETWORK FIREWALL

IPRS Consultants offers advanced network firewall solutions to safeguard your infrastructure from unauthorized access and cyber threats. Our service includes firewall setup, configuration, and continuous management, ensuring secure data flow and enhanced perimeter defense. We implement intrusion prevention systems (IPS) and monitor traffic to detect anomalies in real-time. With our expertise, clients benefit from robust security, minimized risks, and compliance with industry standards, ensuring uninterrupted and safe network operations.

NETWORK FIREWALL PRODUCTS

Cisco ASA

Secure firewall solution integrating VPN support, IPS, and advanced threat detection.

Kaspersky

Provides firewalls, IPS, and threat intelligence to prevent unauthorized access and breaches.

Symantec

Offers IPS, firewalls, and intrusion detection to ensure advanced network security.

Forcepoint

Integrates DLP, firewalls, and intrusion detection to protect sensitive data across networks.

Check Point Firewalls

Unified threat management with multi-layered security and real-time threat intelligence.

NETWORK MONITORING & FORENSICS

IPRS Consultants provides comprehensive system and network monitoring to ensure uninterrupted operations and robust security. Our service includes real-time performance tracking, threat detection, and vulnerability management to prevent disruptions. We proactively identify anomalies, optimize infrastructure, and safeguard against unauthorized access. With 24/7 monitoring and instant alerts, we help organizations maintain stability, enhance performance, and mitigate risks, ensuring seamless business continuity and operational efficiency.

NETWORK MONITORING PRODUCTS

SolarWinds

Monitors network performance, identifies anomalies, and ensures operational stability with detailed analytics.

Trellix

Analyzes network traffic, detects threats, and provides forensic insights for proactive security.

MaxPatrol 8

Manages vulnerabilities, ensures compliance, and provides monitoring for enhanced network security.

BeyondTrust PAM

Controls and monitors privileged access, providing detailed session logs and forensic analysis to prevent misuse.

One Identity PAM

Manages privileged accounts with continuous monitoring, offering session tracking and forensic insights for security.

UNIFIED THREAT MANAGEMENT

IPRS Consultants offers comprehensive Unified Threat Management (UTM) services, combining firewalls, intrusion prevention, antivirus, and content filtering into a single, streamlined platform. Our UTM solutions provide real-time threat detection, automated responses, and centralized control to simplify security management. With IPRS, organizations benefit from enhanced protection, reduced complexity, and optimal network performance.

UNIFIED THREAT MANAGEMENT PRODUCTS

Kaspersky

Provides firewalls, IPS, and antivirus, offering unified threat protection across networks.

Symantec

Delivers firewalls, IPS, and intrusion detection for integrated security management.

Forcepoint

Combines DLP, firewalls, and intrusion detection for complete network protection.

Sophos XG Firewall

Integrates firewalls, IPS, web filtering, and antivirus for real-time, unified threat management.

Cisco Meraki MX

Cloud-managed UTM appliance with firewalls, antivirus, and advanced threat detection capabilities.

EVENT MANAGEMENT (SIEM)

IPRS Consultants provides comprehensive Security Information and Event Management (SIEM) services to enhance your organization's security posture. Our SIEM solutions collect, analyze, and correlate security events in real-time, enabling rapid threat detection and response. We offer customized dashboards, incident management, and compliance reporting to meet your specific needs. With IPRS, you gain valuable insights into security incidents, ensuring proactive measures are taken to protect your critical assets and data effectively.

EVENT MANAGEMENT (SIEM) PRODUCTS

Trellix

Focuses on network traffic analysis and threat detection for effective SIEM capabilities.

Splunk

Collects and analyzes machine data for comprehensive security event monitoring and management.

IBM QRadar

Integrates security analytics and intelligence to detect threats and streamline incident response.

LogRhythm

Provides real-time log analysis and correlation for effective threat detection and response.

ArcSight

Offers advanced analytics and event correlation for comprehensive security monitoring and compliance.
